PRODUCT DESCRIPTION

Disposable 4L Basin with Hygiene Control Bag™ is a high capacity general wash basin that has water and soap resistance properties. Non-sterile.

INTENDED USE

High-capacity 4L Disposable Basin with Hygiene Control Bag[™] can be used for various functions, such as bed-bath washing, feet washing, body cleaning, carrying liquid contents, holding dressing/bandage, collecting human waste, etc. Suitable for single-use only.

FEATURES & BENEFITS

- Being disposable and single-use, it reduces risk of cross-contamination and Hospital Acquired Infections (HAI).
- Suitable for holding clean water for bed and bath washing, specifically for immobile patients.
- Can be used as a general waste collection basin to hold used diapers, wipes, dressing or dirty clothes.
- Multipurpose bowl to serve as an emesis basin for bedridden patients.
- Hygiene Control Bag[™] helps to shield the basin, enhance product usage and provide protection.
- Hygiene Control Bag™ allows the basin to be water resistant and detergent proof, thus suitable to serve as a wash bowl.
- Hygiene Control Bag™ is useful and convenient for isolating and disposing dangerous or contaminated waste. After use, pull drawstring to keep content enclosed from being exposed.
- Apply Super Absorbent Polymer (SAP by Curas™) to stabilize liquid content and prevent accidental spills.
- Basin with reinforced base provides strength to the Hygiene Control Bag[™] during usage and transportation of contents, and stable placement of product.
- Basin with reinforced rim allows easy holding and handling when content is full.
- Product is stackable, thus, reduces storage space.
- WardPakTM (Inner bag) protects product from dust and contamination and allows easy dispensing at ward level.
- Pulp basin act as a support to carry up to 4L content.
