

Injekt Omnifix®

Two and three-piece single use syringes

Standard, fine-dosage and catheter fitting syringes for manual use.

For dosages of 1 ml to 100 ml.

Natural latex-free

B | BRAUN
SHARING EXPERTISE

Injekt 2 ml–20 ml, Luer and Luer Lock

Two-piece standard syringes

Green plunger

- for easy recognition of the filling volume

Black graduation

- for ideal contrast and readability

Smooth and steady plunger action

- latex-free
- silicone-free

With centric Luer lock cone

- for secure screw connection, especially with use of cytostatics

Extended graduation

- allows for exact dosage beyond the nominal volume and encourages the use of small-volume syringes for intermediate volumes

nominal volume	usable up to
2 ml	3 ml
5 ml	6 ml
10 ml	12 ml
20 ml	24 ml

High barrel transparency

- simplifies inspection of the syringe's content

Injekt 1 ml, Luer

Two-piece fine-dosage syringes

Injekt-F

- the "displacement spike" of the plunger reduces the residual volume and minimises unnecessary loss of medicaments

Injekt-H

for heparin 10,000 I.U./1 ml
for heparin 25,000 I.U./1 ml

- with the special graduations for heparin concentrations of 10,000 I.U. and 25,000 I.U., a conversion of the dosage amount is unnecessary

Omnifix® 2 ml – 50 ml, Luer and Luer Lock

Three-piece standard syringes

Plunger stopper with double sealing ring

- natural latex-free made of synthetic material, qualified according to ISO 10993 resp. DIN EN 30993 (biological evaluation of medical devices)
- for slow aspiration and injection

Easily noticeable backstop

- to prevent unintentional withdrawal of plunger from barrel

Natural latex-free

Luer cone

- luer fitting 2 ml centric, 5–50 ml eccentric

Colour-coded dispenser box

- for quick identification by size
 - 2 ml blue
 - 5 ml red
 - 10 ml orange
 - 20 ml green
 - 30 ml yellow
- 100 pieces per box

Omnifix® 1 ml, Luer Three-piece fine-dosage syringes

Omnifix®-F

- for precise dosage of the smallest volumes

Omnifix®-H

for heparin 10,000 I. U./1 ml
for heparin 25,000 I. U./1 ml

- Product range
 - Solo – without needle
 - Duo – with needle enclosed

Omnifix® 50 ml – 100 ml, catheter fitting Three-piece high volume irrigation syringes

- for tube feeding and irrigation
- with centric catheter fitting cone for direct connection
- also with luer adapter

Product models

Single use syringes according to ISO 7886-1, EO-sterilised
